

W-H R410A / 454B 40/60/90kW
Ground Source Heat Pump Brine to Water

KEY FEATURES

- Inverter technology and Scroll compressor
- Ability to modulate thermal power (12.5-100%) and the speed of the production circulator (20-100%)
- VOLTA S-Cascade: manager for cascade installations, allowing for the control of up to 6 units
- Active cooling (VOLTA W-H-A)
- Passive cooling externally
- Energy meters included
- Simultaneous cooling-heating production
- VOLTA S-Source: source manager that allows control of up to 4 different sources of collection for air source or hybrid collection systems
- Integrated management of external modulating or ON/OFF auxiliary support equipment
- Internet connection and remote control
- Hybridisation with PV systems integrated

R454B

R410A

VOLTA
HEAT PUMPS

- Inverter technology and Scroll compressor
- Power ranges:
R410A — 12-40 kW / 15-60 kW / 25-90 kW
R454B — 20-80 kW
- Domestic Hot Water (DHW) production with external tank
- Heating and pool production
- Active cooling production inbuilt
- External production of passive cooling (free cooling)
- Internet connection and remote control
- Integrated photovoltaic hybridisation
- Simultaneous production heating — reversible and passive cooling
- Hybridisation of the sources of collection with VOLTA S-Source
- Integrated cascade control up to 6 units
- Three-phase power supply (400V)

VOLTA W-H-H	VOLTA W-H-A
